SUMMARY

Passionate Java backend developer with a drive for software engineering excellence. Proficient in Java and equipped with solid backend development skills. Strong problem-solving abilities, attention to detail, and a commitment to ongoing learning. Eager to contribute to dynamic projects in a collaborative environment

EDUCATION

- **AISSM's Institute Of Information Technology** Pune, India
Bachelor's Of Engineering (EnTc); SGPA: 9.32/10.0 07/2019 – 08/2022
- **Government Polytechnic Nashik** Nashik, India
Diploma In Electronics And Telecommunication Engineering; Percent: 76.31/100 07/2016 – 08/2019

PROJECTS

- **Moms cake studio (GitLink)** 06/2024
Tech Stack: Spring Boot, MySql, Thymeleaf, Java, RESTful APIs, Spring Security, OAuth2, Paypal sandbox, MVC
 - Architected a responsive user interface with Thymeleaf for an impeccable experience.
 - Devised robust authentication and authorization using Spring Security and also integrated Google OAuth 2.0 for seamless social login.
 - Orchestrated PayPal gateway configuration for secure transactions. Formulated a custom email service for automated notifications.
 - Designed a role-based access control system with User and Admin roles. Leveraged MySQL for optimized data management.
- **Show Buddy (GitLink)** 02/2024
Tech Stack: Spring Boot, MySql, Postman, Swagger, Java, Exception Handling, RESTful APIs, Maven
 - Developed a robust, high-performance Java Spring Boot web application which offers a way to book movie ticket featuring a comprehensive set API's. Crafted a seamless and user-friendly ticket booking platform.
 - Ensured secure transactions and efficient movie selection. Integrated email notifications for registrations and bookings.
 - Implemented a sophisticated theater management system, empowering theater owners to effortlessly manage registrations, seating arrangements, and allocations.
- **Library Linkup (GitLink)** 01/2024
Tech Stack: Spring Boot, MySql, Postman, Swagger, Java, Exception Handling, RESTful APIs, Maven
 - Engineered a dynamic tool to manage day-to-day library operations by utilizing Spring Boot.
 - Established RESTful APIs for efficient book and author management, student enrollment, and book lending processes. Established an email reminder system to encourage prompt book returns.

SKILLS

Programming Languages: Core Java, C

Frontend Technologies: HTML, CSS

Backend Technologies: Spring Boot, Microservice, Hibernate, JPA, Spring MVC, Spring Security, Maven, Gradle

Database and VCS: SQL, MySQL, Git, GitHub

Coursework: DSA, DBMS, OOP, Operating System, Multi-Threading, Exception Handling

Soft Skills: Effective Communication, Problem Solving, Collaborative Teamwork, Attention to Detail

INTERSHIP AND TRAININGS

Java Full-Stack Web Development, AccioJob

Pursuing

Wipro Velocity Training, Stackroute

01/2021 — 05/2022

ACHIEVEMENTS AND EXTRA-CURRICULAR ACTIVITIES

- Impressively tackled over **1000 Data Structures and Algorithms (DSA)** challenges across diverse platforms.
- An **author**, recognized for their contribution to the anthology "Hushed Hues."
- Secured the **1st Prize** in a college poetry writing competition, showcasing creative prowess and literary excellence.
